## **INSIDE NEWS**

Bobby DaGessee retires! For the second time! Bobby at age 82 decided to begin his retirement all over again! This time he says he'll only come back to visit! Bobby was with Red-Hed Manufacturing since 1982 and was the Quality Control Technician. Congratulations Bobby! Send us post cards!

Red-Hed gets in tune! John Lynch; Foreman oversaw the tune up of each major piece of equipment, completing the first phase of the rejuvenation project began last year. All the machinery is being brought up to peak and getting some much needed plastic surgery (*fresh paint*)! Great Job Johnny!

## **NEWS FIT TO PRINT**

AWWA Standards in review! Several of our Outside Sales personnel ran into an issue as the word was being said Red-Hed no longer meets AWWA C-800! This is true! The original standard (1948) states the metal must be 85-5-5-5 bronze! Wow! No worries though! AWWA has received just a few letters asking them to correct this, as even in the latest article from February of this year, AWWA is urging everyone to get to the Low Lead Level brass products! We did one better! We got ALL the LEAD OUT!

Trade Show Days: It was great to see you all at the Worcester show at the end of March! We thought it was a great show and well attended! To the folks we saw in Portland, ME it was great to see you as always!

**Red-Hed Trivia:**

In what year did Red-Hed move into its current building? First 6 to email the correct answer to Bruce Halliday at [bruce.halliday@ejprescott.com](mailto:bruce.halliday@ejprescott.com) will receive a Team Red-Hed Ball cap!

Hints: Birth of the legendary 540 HP Corvette and last year of the C-2 body style!
