# Redi-Jack Pipe Support

## An Adjustable, Ready-To-Use Stand Designed To Meet All Your Piping Support Needs

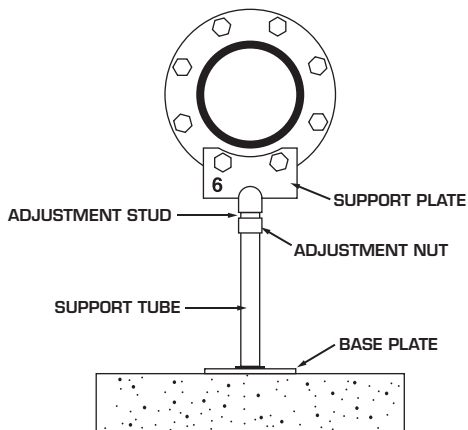

This unique product is perfect for supporting large water meters and backflow devices. The Redi-Jack Pipe Support features a one-piece support plate and a support tube that can be cut to size in the field. Both the support plate and the base plate are drilled so the stand can be securely anchored.

### Features:

- Field adjustable
- One-piece support plate
- Rust-resistant paint finish
- Support plate available in 4"-12" sizes
- Standard 3' height; other heights available

### Materials:

- **Support Plate** - Cast ductile iron, ASTM A-536
- **Adjustment Nut** - Grade A, extra heavy, ASTM A-536
- **Adjustment Stud** - 1" rolled threads, ASTM A-307
- **Main Support** - Steel pipe, Schedule 40, ASTM A-53
- **Base Plate** - Hot rolled 1/4" steel, ASTM A-36
